Mossab Kbeisy
Engineering Team Lead/ Senior Backend Developer

HEADLINE

Proven Expert in Full Spectrum Solution Development: Strategic Planning, Team Performance Management, and Seamless Deployment | Comprehensive 360° Technical Mastery in Coding, UI, DevOps, Cloud Solutions, and Team Leadership

EXPERIENCE

VAI Marketing Management, Dubai — *Engineering Team Lead/ Senior Backend Developer*

March 2022 - Present

- ➔ **Leading the development and deployment** of SaaS applications in Fintech, Compliance, and Crypto sectors using MERN and LAMP stacks, ensuring scalability and efficiency.
- ➔ **Leading a team of 10 engineers**, streamlining Agile workflows and fostering collaboration through tools like JIRA, resulting in improved productivity.
- ➔ **Designed and optimized cloud infrastructure on AWS and VMs,** overseeing CI/CD pipelines and application deployment in Ubuntu environments.
- ➔ **Integrated AI-driven tools** like GitHub Copilot and OpenAI Codex to enhance development processes, code review, and web application optimization.
- ➔ **Spearheaded cross-functional collaboration** with Product, DevOps, and QA teams to align technical efforts with business objectives and compliance standards.
- ➔ **Implemented career development initiatives,** performance reviews, and growth-focused 1-on-1s, driving employee retention and continuous improvement.
- ➔ **Migrated legacy systems to AWS**, reducing costs and increasing reliability while establishing boilerplates to accelerate project kickoffs.

Shaadoow Web Design, Dubai — *Engineering Team Lead/ Senior Backend Developer*

November 2019 - March 2022

- ➔ **Streamlined Agile workflows** and team collaboration with JIRA, managing SCRUM cycles, sprints, and reporting.
- ➔ **Administered app releases** on App Store and Google Play, including crash monitoring and release strategies.
- ➔ **Optimized AWS infrastructure**, reducing costs by 30% and improving security by 80%, while managing accounts and credentials.
- ➔ **Developed and maintained APIs** for iOS, Android, and web, and designed CMS and databases (SQL/NoSQL), enhancing performance and accuracy.

UNHCR, Damascus — *Full Stack developer*

January 2019 - October 2019

➔ **Developed an in-house ERP system** to automate human resources management, enhancing efficiency and accuracy.
➔ **Designed and implemented the system's database schema**, along with backend and frontend code.
➔ **Managed and secured data archiving**, ensuring robust data protection and accessibility.
➔ **Transformed HR operations from traditional methods to a fully automated process**, boosting performance and accuracy by over 70%.

technology used: PHP, Laravel, AWS, Mysql, JavaScript

WebOneZero, Kuwait City — *Jr. Web developer*

February 2017 - January 2019

➔ **Develop and design many Arabic and English websites** and applications
➔ Design icons and banners

technology used: Native PHP, Mysql, JavaScript, Adobe XD

TECHNICAL SKILLS

Javascript | **NodeJs** | ExpressJs | Native **PHP** | PHP Frameworks | **Laravel** | Lumen | **CodeIgniter** | Relational Databases | **MySQL** | SQL Server | NoSql databases | **MongoDB** | **AWS** cloud | **Linux** servers | **Ubuntu** | Web servers (**Apache** | **Nginx**) | LAMP stack | MERN stack | Swagger API **documentation** | Apache Jmeter | and **Testing** tools | FFMPEG | **Agile** process | SCRUM | Version Control | **Git** | GitHub | Bitbucket | **Jira** | Docker | **Unit test** | Documentation writing | **VueJs** | **ReactJs** | Jquery | Ajax. | **CSS** | CSS frameworks | **Bootstrap** | CSS **preprocessors** | **HTML 5** | **UI/UX** fundamentals | **Rest API** | third party **integration** | **FIAT Payment gateway** integration. | Integration | Adobe **Photoshop** | Adobe XD | Arduino.

EDUCATION

Computer Engineering, Al-Baath University — *Bachelor Degree*

2012 - 2017

Computer engineering is a branch of engineering that integrates several fields of computer science and electronic engineering required to develop computer hardware and software.

LANGUAGES

➔ English – fluent in speaking reading and writing
➔ Arabic – mother tongue.
